Professional Summary

Results-driven Java Developer with hands-on experience in designing and implementing microservices, RESTful APIs, and cloud-native applications using Java, Spring Boot, and AWS. Skilled in CI/CD pipelines (Jenkins, Maven, GitHub Actions), containerization (Docker, Kubernetes), and messaging systems (Kafka, RabbitMQ, Redis). Strong expertise in database optimization, scalable backend development, and delivering production-ready enterprise solutions. Adept at working in Agile/Scrum environments and collaborating across teams to ensure high-quality software delivery.

Technical Skills

- **Languages:** Java, SQL
- **Frameworks:** Spring Boot, Spring MVC, Spring Security, Hibernate, JPA
- **Databases:** MySQL, Redis
- **Cloud & DevOps:** AWS (EC2, S3, Lambda), Docker, Kubernetes, Jenkins, CI/CD
- **Messaging Systems:** Apache Kafka, RabbitMQ
- **Version Control:** Git, GitHub
- **Other Tools:** Maven, JUnit, REST Assured, Postman

Professional Experience

- **Java Developer Intern – Appmint Innovation Pvt. Ltd.** Remote
Mar 2025 – Jul 2025
 - Engineered 3+ RESTful microservices in Spring Boot for the Email Automation Tool, enabling real-time email verification and bulk delivery, cutting invalid bounces by 40%.
 - Integrated Spring Security with JWT tokens, safeguarding access for 1,000+ users.
 - Enhanced API response time by 30% through query optimization and Redis caching.
 - Deployed services on AWS EC2 with Docker containers, improving deployment speed.
- **Java Developer Intern – Quintus Tech Pvt. Ltd.** Indore
Jan 2024 – Mar 2024
 - Designed a Wallet App with modules for fund transfer, balance top-up, and mobile bill payment using Spring Boot and Hibernate, validating scalability with 1,000+ QA test transactions.
 - Partnered with 3 teammates in Agile sprints, completing tasks with 95% on-time delivery.
- **Java Developer Intern – Arbutus Infotech Pvt. Ltd.** Indore
Jan 2023 – Apr 2023
 - Built a Login & Registration app using Spring Boot, MySQL, and JWT authentication.
 - Implemented JWT-based authentication & authorization, reducing unauthorized access attempts by 100%.
 - Participated in code reviews, achieving 95% compliance with company coding standards.

Projects

- **Wallet App** Jan 2024 – Mar 2024
 - Crafted a digital wallet supporting balance tracking, withdrawals, and prepaid recharge.
 - Structured backend with Spring Boot microservices for scalability and fault tolerance.
- **Email Automation Tool** Mar 2025 – Jul 2025
 - Created a bulk email system with Gmail API integration.
 - Added features: email validation, user authentication, and free credits for trial users.

Education

- **Master of Computer Applications (MCA) – Medi Caps University** Indore
2021 – 2023 CGPA: 7.0
- **Bachelor of Computer Applications (BCA) – R.P.L. College** Indore
2018 – 2021 72%
- **Saraswati Vidya Mandir** Timarni
12th – Apr 2014 60%
- **Saraswati Vidya Mandir** Timarni
10th – Apr 2012 68%
